

Authors: Journal of Social and Clinical Psychology

Information for Authors

The *Journal of Social and Clinical Psychology* is a peer-reviewed quarterly journal devoted to the application of theory and research from social psychology toward the better understanding of human adaptation and adjustment, especially psychopathology and related phenomena.

Articles reporting the results of theory-driven empirical research are given priority, but theoretical and review articles are also welcome. Articles describing the development of new scales (personality or otherwise) or the revision of existing scales are not appropriate.

Manuscript submission

All submissions must be made electronically (preferably in Microsoft Word format) to Thomas E. Joiner at joiner@psy.fsu.edu. Only original articles will be considered. Articles should not exceed 8,000 words (text and references). Exceptions may be made for reports of multiple studies.

If the article clears an initial review by the Editor, it is sent to an Associate Editor who in turn arranges peer reviewers. Authors' identities appear on the title page unless authors request otherwise. Authors desiring an anonymous (double-blind) review should request this in the submission letter. In such cases identifying information about the authors and their affiliations should appear only on a cover page.

There are no fees or charges associated with publishing in the journal.

Copyright

Authors must return a signed copyright transfer agreement upon acceptance for publication. A copy of the agreement to be used for the *Journal of Social and Clinical Psychology* is available from the Editorial Office. By signing the agreement, authors guarantee that an article is original, that it is being submitted exclusively to this journal, that it has not been previously published (except in abstract form), and that any clinical material is disguised so as to prevent the subject from being identified.

Permission to reprint a *Journal of Social and Clinical Psychology* article must be obtained in writing from: Permissions, Guilford Publications, 370 Seventh Avenue, Suite 1200, New York, NY 10001-1020 (email: permissions@guilford.com).

Manuscript formatting

Authors should consult the Publication Manual of the American Psychological Association (7th ed.) for rules on format and style. All research papers submitted to the *Journal of Social and Clinical Psychology* must conform to the ethical standards of the American Psychological Association (APA). Articles should be written in nonsexist and bias-free language.

Abstracts must be structured (Introduction, Methods, Results, Discussion) and succinct.

Tables should follow APA style, 7th edition. They may be submitted in Excel or formatted using Microsoft Word's table function. (Tables should not be submitted using tabs, returns, or spaces as formatting tools.)

Tables should be provided at the end of the manuscript text, or as separate Word or Excel files. All tables must be referenced in text, in sequential order.

Figures must be submitted as separate files (not embedded in the manuscript). All figures will be published in grayscale.

Figures should be submitted in one of the following formats: .tif, .jpg, .eps (.bmp, .png, and .gif files are not recommended). PDFs are not accepted. Figure text should be 8–10 pt. sans serif type.

A list of figures with captions, keys, and credits should be provided at the end of the manuscript text. All figures must be referenced in text, in sequential order.

Permissions: Contributors are responsible for obtaining permission from copyright owners if they use an illustration, table, or lengthy quote (100+ words) that has been published elsewhere. Contributors should write both the publisher and author of such material, requesting nonexclusive world rights in all languages for use in the article and in all future editions of it.

Supplemental Materials: Authors interested in publishing online-only supplemental materials (e.g., lengthy tables or appendices, supplementary data sets) with their articles must include that material in their submission materials for peer review.

It is recommended that authors host supplemental materials in an online data repository or institutional repository. A persistent link (i.e., a link that will not change or expire) where readers can find the supplemental materials should be included in the manuscript.

The manuscript must include call-outs for all figures and tables within the supplemental material.

References: Authors should consult the Publication Manual of the American Psychological Association (7th ed.) for reference format and style. Any manuscripts with references that are incorrectly formatted will be returned to the author for revision.

Publication ethics

Disclosure of conflicts of interest

The *Journal of Social and Clinical Psychology* requires that authors disclose all potential conflicts of interest. Any interest or relationship, financial or otherwise, that might be perceived as influencing an author's objectivity or exerting an undue influence on the presentation of their work is considered a potential conflict of interest. These may include, but are not limited to financial, professional, contractual, or personal relationships or situations.

Authors should include a statement in the title page detailing all potential conflicts of interest. If the manuscript has multiple authors, all contributing authors must disclose conflicts of interest.

For additional guidance, refer to the recommendations in the Publication Manual of the American Psychological Association (7th ed.).

Sample wording for your disclosure statement: "Author A is employed at company B. Author C owns shares in company D and is on the Board of Company E. Author F has received grants from [name of grantor] to support the research described in this article."

If no conflicts of interest exist, the declaration should state "The authors declare no conflicts of interest."

Funding statement

The manuscript must include a funding statement detailing all sources of financial support, including grant numbers if applicable.

Sample wording for your funding statement: “This research was supported by an award from the National Institute of Mental Health (grant number XXXX).”

Grants held by different authors should be identified as belonging to individual authors. For example: “This work was supported by the National Institutes of Health (Author A, grant number XXXX), (Author B, grant number YYYY).”

Where no specific funding has been provided for research, authors should state “The author(s) received no specific funding for this work.”

Authorship

The *Journal of Social and Clinical Psychology* refers to **the American Psychological Association (APA) guidelines for authorship** and the **APA Ethics Code**.

Individuals who have made a substantial contribution to the article as defined in the **APA guidelines** should be listed as authors. Contributions that do not meet the criteria for authorship may be recognized in an Acknowledgment note.

Upon acceptance of the article for publication, each author must confirm in writing that they approve the authorship order and agree to the responsibilities of authorship.

Ethics statement

The manuscript must include an ethics statement in the following format:

This study was reviewed and approved by [full name and affiliation of ethics committee], and the procedures followed were in accordance with the Helsinki Declaration as revised in 2013. The patients/participants provided their written informed consent to participate in this study.

For guidance, authors should refer to the **APA Ethics Code** and the **World Medical Association Declaration of Helsinki**.

Scientific or publishing misconduct

The *Journal of Social and Clinical Psychology* editors and Guilford will review **the Committee on Publication Ethics (COPE) Flowcharts** in the event of an allegation of scientific misconduct (including—but not limited to—fabrication or falsification of data, purposeful failure to disclose conflicts of interest or funding sources, and plagiarism); duplicate publication (see **COPE guidance**); or manipulation of the publishing or peer review process.

Corrections

The *Journal of Social and Clinical Psychology* may publish a correction notice if a published article is found to contain a significant error or omission—for example, an omitted author name or a misprinted figure. An erratum will be published in the next available issue of the journal and will be made freely available online.

Retractions

The *Journal of Social and Clinical Psychology* will consider retractions in accordance with the [**Committee on Publication Ethics \(COPE\) Retraction Guidelines**](#).

Requests to retract an article will be investigated by the editors in consultation with Guilford.

Green Open Access and funder compliance

Green open access (also known as self-archiving) allows authors to make a version of their work freely accessible in an institutional or disciplinary repository. Guilford authors may deposit either the published PDF of their article or the final accepted version of the manuscript in a non-commercial repository, where it can be made freely available, six (6) months after publication in the journal. Deposited manuscripts must include full citation of the work along with a link to the product on Guilford's website (i.e., the DOI link).

Funder compliance

Authors should indicate their funding source at the manuscript-submission stage. Please notify your journal editor if the funder of a grant used in creating the work requires that a version of your article be deposited in a public database, with no embargo, upon final publication.

National Institutes of Health

Authors who are National Institutes of Health (NIH) grant-holders may post the **author accepted manuscript** of their journal article to PubMed Central upon acceptance by the journal with no embargo on that material. The author accepted manuscript is the version that incorporates all amendments made during peer review but without the publisher's copyediting and typesetting.

UK Research and Innovation (UKRI), Wellcome Trust, National Institute for Health and Care Research

Guilford complies with the open access requirements of [**UKRI**](#), [**Wellcome**](#), and [**NIHR**](#). Where required by their funder, authors retain the right to distribute their **author accepted manuscript (AAM)**, such as via an institutional and/or subject repository

(e.g. EuropePMC), under a **Creative Commons Attribution 4.0 International (CC BY 4.0)** licence for release no later than the date of first online publication.

The author accepted manuscript is the version that incorporates all amendments made during peer review but without the publisher’s copyediting and typesetting.

The funding acknowledgements and any cover letter accompanying the accepted manuscript must include the following statement: “For the purpose of open access, the author(s) has applied a Creative Commons Attribution (CC BY) license [or where permitted by UKRI/Wellcome/NIHR, ‘Open Government Licence’ or ‘Creative Commons Attribution No-derivatives (CC BY-ND) licence’] to any Author Accepted Manuscript version arising from this submission.”

Authors should consult their funder’s website for additional requirements, such as guidance on data access statements and funding acknowledgments.

Content preservation

Periodicals published by The Guilford Press are deposited in the **Portico** archive to guarantee long-term digital preservation.
