

INFORMATION FOR AUTHORS

The JOURNAL OF SOCIAL AND CLINICAL PSYCHOLOGY is devoted to the application of theory and research from social psychology toward the better understanding of human adaptation and adjustment, including both the alleviation of psychological problems and distress (e.g., psychopathology) and the enhancement of psychological well-being among the psychologically healthy. Topics of interest include (but are not limited to) traditionally defined psychopathology (e.g., depression), common emotional and behavioral problems in living (e.g., conflicts in close relationships), the enhancement of subjective well-being, and the processes of psychological change in everyday life (e.g., self-regulation) and professional settings (e.g., psychotherapy and counseling). Articles reporting the results of theory-driven empirical research are given priority, but theoretical articles, review articles, clinical case studies, and essays on professional issues are also welcome. Articles describing the development of new scales (personality or otherwise) or the revision of existing scales are not appropriate for this journal.

All submissions must be made electronically (preferably in MSWord format) to Thomas E. Joiner at joiner@psy.fsu.edu. Electronic submissions should include all figures and tables in the article file itself, not as separately attached files. Only original articles will be considered.

Articles should not exceed 10,000 words (text and references). Exceptions may be made for reports of multiple studies.

Instructions for paper submissions: Paper submissions will be accepted upon request if electronic submission is not possible. All submissions must be double-spaced, on one side of standard 8 1/2" x 11" white paper. Four copies should be submitted; each must be clearly legible, have all pages numbered, and contain all figures and tables.

Authors desiring an anonymous review should request this in the submission letter. In such cases identifying information about the authors and their affiliations should appear only on a cover page.

Tables should be numbered and referred to by number in the text. Each table is to be typed on a separate sheet of paper.

List **references** alphabetically at the end of the paper and refer to them in the text by name and year in parentheses.

Authors may consult the publication manual of the American Psychological Association, 5th Edition (2002), for rules on format and style. All research papers submitted to the JOURNAL OF SOCIAL AND CLINICAL PSYCHOLOGY must conform to the ethical standards of the American Psychological Association. Articles should be written in nonsexist language.

Contributors are responsible for obtaining permission from copyright owners if they use an illustration, table, or lengthy quote (100+ words) that has been published elsewhere. Contributors should write both the publisher and author of such material, requesting nonexclusive world rights in all languages for use in the article and in all future editions of it.
